CONTRACT TITLE

Submittal Matrix ID (this submittal):	XXX
Specification Section:	
Submittal No.:	
Submittal Title:	
Date:	
Submitted by:	
Does Submittal contain Deviations (Per Section 00 72 00 – General Terms and Conditions; Article 4.4) from the Specifications (Yes/No). If yes, explain the deviation(s)	

Paragraph	Submittal Item	Submittal Matrix ID	Notes
1.05A	Procedure: 01 33 00	N/A	Acknowledged
1.05B	Provide the submittals from this Section with the submittals for Section 26 29 23, Section 43 05 50, and Section 40 05 93 for evaluation together as a submittal package.	N/A	Acknowledged
1.05C1	<i>Certificate of Unit Responsibility</i>	123	<i>Previously provided</i>
1.05C2	<i>Predicted pump performance curves</i>	124	<i>Previously provided</i>
1.05C3	Pump factory test	XXX	Attached/included
1.05C4	O&M Manual: 01 78 23	456	Will be submitted later

01 33 00-B SUBSTITUTION REQUEST FORM

TO: _____

CONTRACT NO. KC _____: CONTRACT NAME: _____

We hereby submit for your consideration the following item instead of the specified item or procedure:

<u>Section</u>	<u>Paragraph</u>	<u>Specified Item</u>
_____	_____	_____

Proposed Substitution:

Attach complete data, including laboratory tests, if applicable. Include complete information on changes to Contract Drawings and/or Specifications that proposed Substitution would require for its proper installation.

Fill in blanks below:

A. How will substitution affect dimensions shown on Drawings?

B. What effect does the substitution have on the Baseline or Update Schedule?

C. State quality and performance differences between proposed substitution and specified item or procedure.

D. List the cost differences between proposed substitution and specified item or procedure. (Attach estimate/quote and indicate net change).

01 33 00-B **SUBSTITUTION REQUEST FORM (continued)**

E. List manufacturer's name and address, trade name of product, and model or catalog number.

F. Other information as required by the Project Representative.

G. The undersigned states that the function, appearance, and quality of the proposed substitution are equivalent or superior to those of the specified item and authorizes the payment to the County for all design changes including Project Representative, detailing, and County processing costs.

H. The undersigned states that there is a waiver of all claims for additional costs related to the substitution which may subsequently arise during the Work.

I. Manufacturer's guarantees the proposed and specified items are:

Same Different (explain on attachment)

Submitted by: _____ For use by Project Representative

Contractor Signature _____ Accepted Accepted as Noted

_____ Not Accepted Received Too Late

Firm _____ By: _____

Address _____ Date: _____

_____ Remarks: _____

Date: _____

NOTE: WHEN REQUIRED BY THE PROJECT REPRESENTATIVE, ALL SUBSTITUTIONS SHALL BE STAMPED AND SIGNED BY A PROFESSIONAL ENGINEER LICENSED IN THE STATE OF WASHINGTON.

Contract Name: _____

Contract No: _____ Date: _____

Project Name:	Lower Duwamish Waterway – Upper Reach		
Project No:		Report No:	
Report Day and Date:		Period of Work:	
Weather:		Temperature High/Low:	
<p><i>This Daily Construction Report template is provided for Contractor convenience only. The Daily Construction Report shall be submitted in accordance with the requirements of Section 01 33 00 (Submittals).</i></p>			

Summary of the Day
<p><u>Work Activities Accomplished for the Day (by SMA):</u></p>
<p><u>Work Activities Planned for the Following Day (by SMA):</u></p>

Health and Safety
<p><u>Safety Inspections and Actions Taken: Record safety infractions, near misses and accidents and any contingency actions implemented. Provide any accident/incident report as applicable (as an attachment).</u></p>

Work Force: Contractor, Subcontractor/Visitors on Work Site			
Employee & Title/Trade	Company	Description of Work Performed	Hours Worked
Visitors:			

Construction Equipment Summary				
Equipment Description Including Make/Model	Activity Description	Company	Tier Engine	Hours Used
<p><u>Additional Notes: Summarize the daily equipment on site and note extra work, delays, changes, damage, inspection, or repairs of equipment.</u></p>				

Clearing and Grubbing Summary		
Area(s) Cleared/Grubbed (by SMA)	Type/Quantity of Cleared and Grubbed Material	Description of Work Performed

Additional Notes: Summarize the daily work performed. Provide copies of all Certificates of Disposal (or weight manifests/ weight tickets) (as an attachment).

Vessel Management and Safety		
<p><i>Summarize Project vessel movement and vessel management coordination (tracking of regular communications with Project and non-Project vessels, including interactions and communications with Tribes). Provide documentation to certify that barges are properly loaded (as an attachment).</i></p>		
<input type="checkbox"/>	Confirm that equipment and barges have been adequately secured overnight	Vessel Captain Signature:

Daily Dredging/Excavation Summary					
Area(s) Dredged (by SMA)	Estimated Dredge Pay Volume (including Dredge Material and Dredge Debris) (CY)	Estimated Payable Overdredge Allowance Volume (CY)	Estimated Excessive Dredge Volume (CY)	Estimated Contingency Re-Dredging Volume (CY)	Estimated Identified Debris (TON)
<p><i>Additional Notes: Summarize the daily work performed including barge dewatering. Include Progress Surveys, calculated quantities, and supplemental documentation such as electronic dredging records (i.e., "bucket maps") (as an attachment).</i></p>					

Daily Transloading Summary					
Trip Number	Material Type (Dredge Material and Dredge Debris, Identified Debris, or Piling)	Area included in Barge Load (by SMA)	Empty Barge Weight (TON)	Full Barge Weight (TON)	Estimated Volume of Barge Water Transported to, Offloaded, Treated and/or Disposed of at Contractor Transload Facility (L)
1					
2					
3					
4					
<p><i>Additional Notes: Summarize the daily work performed. Include Certificates of Disposal and other documentation to track Dredge Material, Dredge Debris, Identified Debris, and Piling (as an attachment).</i></p>					

Material Delivery Summary				
Material Description (by Material Type)	Contractor Inspection Performed By	Quantity (CY or TON)	Date/Time of Delivery	Material Source
<p><i>Additional Notes: Note any deficiencies of materials per Section 35 37 10 (Material Placement). Include certified weight tickets from the supplier as an attachment.</i></p>				

Daily Material Placement				
Material Description (by Placement Material)	Placement Area(s) (by SMA)	Approximate Area (SY) or Volume Placed (CY)	Approximate Overplacement Volume (CY)	Approximate Excessive Overplacement Area (SY) or Volume (CY)
<p><i>Additional Notes: Summarize the daily work performed. Include Progress Surveys (including field notes, survey calculations, and field verification [i.e., "bucket maps"]) (as an attachment).</i></p>				

Structural Work Summary		
SMA(s) Worked	Description Work Performed (Piling Removal or Steel Pipe Piling Installation, bulkhead strengthening or reinforcement, outfall energy dissipation structures installation)	Estimated Piling Removed (Unit and TON)

Additional Notes: Summarize the daily work performed. Include Certificates of Disposal and other documentation from the Disposal Facility(ies) (as an attachment).

Water Quality and Management			
Criteria	BMPs Implemented	Complaints	Contingency Actions
Water Quality			
Stormwater Pollution Prevention			
Water Management			
Spills			

Additional Notes: Summarize activities for water quality protection, stormwater pollution prevention, water management and spills, and any implemented measures, controls, and actions to address these issues.

Air, Noise, Light, and Odor Compliance			
Criteria	BMPs Implemented	Complaints	Contingency Actions
Air			
Noise			
Light			
Odor			
<p><i>Additional Notes: Summarize daily best management practices to control air, light, noise, and odor, as well as any complaints and contingency actions implemented.</i></p>			

Contractor Quality Control Activities		
Inspection/Test	Performed By	Findings
<p><i>Additional Notes: Summarize Contractor Quality Control Activities in accordance with the Quality Control Plan. Summarize inspections and testing activities performed and describe any issues identified and its resolution. Provide documentation as applicable (as an attachment).</i></p>		

Additional Notes:

Health and Safety

Summary of the week's safety infractions, near misses, and accidents, and anticipated safety measures to be required in the following week's work.

Construction Equipment Summary

Equipment Description Including Make/Model	Activity Description	Company	Tier Engine	Total Hours Used

Additional Notes: Summarize the weekly equipment on site and note extra work, delays, changes, damage, inspection, or repairs of equipment that occurred or are planned for the following week.

Clearing and Grubbing Summary	
Area(s) Cleared/Grubbed (by SMA)	Total Quantity of Cleared and Grubbed Material
<p><u>Additional Notes: Summarize of the week's clearing and grubbing activities, including Work completed to date and anticipated Work to be completed in the following week.</u></p>	

Weekly Vessel Management and Safety
<p><u>Summarize the week's work, including vessel management activities and planned vessel movements for the following week.</u></p>

Completed Dredging/Excavation Weekly Summary			
Material	Description (Including SMA)	Approximate Production This Week (CY or TON)	Approximate Total Cumulative Production (CY or TON)
Dredge Material and Dredge Debris			
Identified Debris			
Piling			
<p><i>Additional Notes: Summarize the week's dredging and excavation activities completed. Include the latest Progress Surveys and Post-Construction Surveys for Required Dredging, Required Excavation and Contingency Re-Dredging, as required (as an attachment).</i></p>			

Anticipated Dredging/Excavation Weekly Summary	
Material	Description (Including SMA)
Dredge Material and Dredge Debris	
Identified Debris	
Piling	
<p><i>Additional Notes: Summarize the anticipated dredging and excavation activities anticipated to be completed in the following week.</i></p>	

Weekly Transloading, Upland Transportation, and Disposal Summary		
Material	SMA(s) Included in Barge Load	Cumulative Transloading Weight (TON)
Dredge Material and Dredge Debris		
Identified Debris		
Piling		
<p><i>Additional Notes: Summarize the week's work for transloading, upland transportation, and disposal activities completed each day of the week. Include the latest Certificates of Disposal and other documentation from the Disposal Facility including certified weight tickets and waste manifests.</i></p>		

Weekly Material Placement Summary			
Material Description (by Placement Material)	Placement Area(s) (by SMA)	Approximate Total Placement This Week (SY or CY)	Approximate Total Cumulative Placement (SY or CY)
<p><i>Additional Notes: Summarize the week's material placement activities. Include the latest Progress Surveys and Placement Post-Construction Surveys (as an attachment).</i></p>			

Anticipated Material Placement Summary	
Material Description (by Placement Material)	Placement Area(s) (by SMA)
<p><i><u>Additional Notes: Summarize the anticipated work to be completed in the following week, including specific areas identified for placement.</u></i></p>	

Weekly Structural Work Summary		
SMA(s) Worked	Description Work Performed (Piling Removal or Steel Pipe Piling Installation, bulkhead strengthening or reinforcement, outfall energy dissipation structures installation)	Total Piling Removed (Unit and TON)
<p><i><u>Additional Notes: Summarize the weekly work performed. Include Certificates of Disposal and other documentation from the Disposal Facility(ies) (as an attachment). Provide a description (by SMA) of the anticipated structural work to be completed in the following week.</u></i></p>		

Environmental Inspection and Monitoring Report		
Criteria	Summary of BMPs implemented	Emerging or Outstanding Issues
Water Quality		
Stormwater Pollution Prevention		
Water Management		
Spills		
Air		
Noise		
Light		
Odor		
<p><u>Additional Notes: Summarize the week's compliance with water quality standards and air, light, noise, and odor compliance criteria and include the following: a description of environmental issues and corresponding mitigation measures implemented, and communication steps taken; summary of emerging and outstanding environmental issues; report on environmental incidents (e.g., spills) and corrective action taken; and photographs documenting construction activities, environmental issues, and corresponding mitigation measures.</u></p>		

Contractor Quality Control Activities
<p><u>Summarize the week's Contractor Quality Control Activities in accordance with the Quality Control Plan.</u></p>

Erosion Control Activities	
<p><u>Provide the Construction Stormwater Site Inspection Checklist (as an attachment).</u></p>	

Protection and Maintenance of Property and Work	
Description	Schedule
<p><u>Additional Notes: Provide a summary of all the potholing and utilities/facilities to be physically protected and relocated in the upcoming week.</u></p>

SUBCONTRACTOR/SUPPLIER CHANGE ORDER

Subcontractor/Supplier Name: _____ Change Order No.: _____

Address: _____ Change Order Date: _____

_____ Contract/P.O. Date: _____

Phone: _____

Project Name: _____
(If Applicable)

This Change Order shall modify the Agreement between Pacific Pile & Marine, LP (“Contractor”) and _____ (Subcontractor/Supplier) entered into on _____ (the “Contract”).

Description of Changes:

Attachments:

Except for such changes as are set forth herein, all of the terms and conditions of the aforementioned Contract, and as it may have been heretofore modified in writing, shall be and remain the same.

The Original Contract Sum:	\$
Net change by previously authorized Change Orders:	\$
The Contract Sum prior to this Change Order was:	\$
This Change Order will increase/decrease (circle one) the the Contract Sum by:	\$
The new Contract Sum including this Change Order will be:	\$
Time Extension to Contract Time (if applicable):	Days

The Change Order is accepted upon the terms and conditions stated above and those in the original Contract. This Change Order is not valid until signed by both Contractor and Subcontractor/Supplier, and a signature indicates the party’s agreement herewith, including any adjustment in Contract Sum or Contract Time. Subcontractor/Supplier accepts this Change Order as full payment for any and all claims relating to the work covered by this Change Order, including but not limited to claims for time extensions, direct and indirect costs, delay, impact, inefficiency, and accelerations costs. For Unit Price Contracts, all extended dollar amounts (i.e., unit price multiplied by anticipated quantities) are approximate based upon anticipated quantities, and the actual extended amount will be determined by extension of unit prices and actual quantities as measured according to the Contract provisions.
