LOWER DUWAMISH
WATERWAY GROUP

Cleanup Construction Activities

Construction is ongoing from 7 a.m. to 7 p.m., Monday through Friday and 9 a.m. to 7 p.m. on Saturdays. Movement of barges may occur outside of these work hours. For questions or concerns, you can reach our team at info@ldwg.org or 1-888-561-LDWG (1-888-561-5394).

Please note that in-water construction activities are dynamic and weather-dependent. All schedules are subject to change.

Weekly Environmental and Community Report for the week of December 9

During sediment dredging, occasional shiny or iridescent sheens have been observed on the water surface in the work areas. Sheens can come from plant materials as they decompose or can be caused by man-made chemicals that may be present in the sediments, such as petroleum products, that are disturbed when dredging equipment is digging into sediments. The project is responding to observed sheens by deploying oil-absorbing booms.

You may view the weekly report and other previous weekly reports by clicking the link below.

What to expect during the week of December 23

During the week of December 23, dredging will not occur Monday through Wednesday and will occur on Thursday through Saturday. Construction activities will continue in Sediment Management Areas (SMA) 2, 3, 4, 6, and 9 as shown on the map linked below. Crews will continue preparation for installing sheet piles near SMA 9. Installing sheet piles may cause higher noise levels during the daytime.

What to expect during the week of December 30

During the week of December 30, cleanup activities will continue in SMAs 2, 3, 4, 6, and 9,

including sheet pile installation.

Construction will not occur on Wednesday, January 1 due to the holiday.
