

LOWER DUWAMISH WATERWAY UPPER REACH

## Cleanup Construction News

LOWER DUWAMISH  
WATERWAY GROUP

### Cleanup Construction Activities

Construction is ongoing from 7 a.m. to 7 p.m., Monday through Friday and 9 a.m. to 7 p.m. on Saturdays. Movement of barges may occur outside of these work hours. For questions or concerns, you can reach our team at [info@ldwg.org](mailto:info@ldwg.org) or 1-888-561-LDWG (1-888-561-5394).

Please note that in-water construction activities are tide- and weather-dependent. All schedules are subject to change.

### Weekly Environmental and Community Report for the week of December 23

You may view the weekly report and other previous weekly reports by clicking the link below.

### What to expect during the week of January 6

During the week of January 6, cleanup activities will continue in Sediment Management Areas (SMAs) 2, 3, 4, 6, 7, and 9, including sheet pile installation. Installing sheet piles may cause higher noise levels during the daytime. See the map of cleanup areas linked below.

### What to expect during the week of January 13

During the week of January 13, cleanup activities will continue in SMAs 2, 3, 4, 6, 7, and 9.

Dredging at SMA 9 removes debris to enable contaminated sediment removal. (Photo credit: Geosyntec)

**Remember, the only Duwamish River seafood that is safe to eat is salmon.** In the Duwamish River, the seafood that spend their entire lives in the river (perch, sole, flounder, crab, mussels, and clams) are unsafe to eat. They have high levels of toxic chemicals (such as PCBs) that you cannot see.

Learn how to protect your health while fishing for seafood that is safe to catch and eat. [Eating Seafood—Public Health Seattle and King County: Fun to Catch, Toxic to Eat.](#)
