Cleanup Construction Activities

Season 2 construction in the upper reach, the southernmost two miles of the Lower Duwamish Waterway Superfund site, will continue through February 2026. Season 2 construction will occur on weekdays and Saturdays, with **work taking place during both daytime and, when needed, nighttime hours**. Work hours vary based on factors such as tides and the type of work being conducted (e.g., dredging or placing clean material). Work will be coordinated with Tribal fishing.

Please note that in-water construction activities are dynamic and weather-dependent. All schedules are subject to change. Visit LDWG.org for the most up-to-date information.

If you have questions or concerns, you can reach our team at info@ldwg.org or 1-888-561-LDWG (1-888-561-5394).

Environmental and Community Report for the Week of November 24

Environmental & Community Report

With oversight from the EPA, we are working to minimize the impact of construction on those who work, live, and spend time along the Duwamish Waterway. Stay informed about environmental monitoring and construction activities by viewing our weekly report linked above.

A Thank You to the Community!

We appreciate your patience during the nighttime closures of the South Park Bridge on December 1 and 2. The construction team successfully completed the work beneath the bridge needed for this week.

What to Expect During the Week of December 8

Cleanup dredging activities will occur at sediment management areas (SMA) 7, 11A, and 16. Cleanup activities that involve placing clean material in completed dredged areas will occur in SMAs 14D and 15A. All work will take place during the daytime, between 6:30 a.m. and 6 p.m.

What to Expect During the Week of December 15

Cleanup activities will take place at SMAs 7 and 16 and will occur during the daytime, between 6:30 a.m. and 6 p.m.

Placing clean sand to cover the dredged areas in SMA 14D under the South Park Bridge. (Geosyntec, December 2, 2025)
