### Cleanup Construction Activities

Season 2 construction in the upper reach, the southernmost two miles of the Lower Duwamish Waterway Superfund site, will continue through February 2026. Construction will occur on weekdays and Saturdays, with work taking place during both daytime and, when needed, nighttime hours. Work hours vary based on factors such as tides and the type of work being conducted (e.g., dredging or placing clean material).

Please note that in-water construction activities are dynamic and weather-dependent. All schedules are subject to change. Visit [LDWG.org](http://LDWG.org) for the most up-to-date information.

If you have questions, or concerns, you can reach our team at [info@ldwg.org](mailto:info@ldwg.org) or 1-888-561-LDWG (1-888-561-5394).

### Environmental and Community Report for the Week of February 2

[View Last Week's Environmental and Community Report](#)

With oversight from the U.S. Environmental Protection Agency (EPA), we are working to minimize the impact of construction on those who work, live, and spend time along the Duwamish Waterway. Stay informed about environmental monitoring and construction activities by viewing our weekly report linked above.

### What to Expect During the Week of February 16

Cleanup activities will entail placing clean material at sediment management areas (SMAs) **9**, **11A**, and **12B**. These are areas where dredging is complete. Work will occur during the daytime, between 6:30 a.m. and 6 p.m. The contractor will be conducting cleanup activities all week, including on President's Day, Monday, February 16.

## What to Expect During the Week of February 23
